

TESTIMONIALS

Shipments increased to 6,000 per issue due to spectacular demand! The magazine shipment we received this week is gone! *They flew off the shelves.* The Concierge desk in the Galleria ran out in two days, the other desks ran out yesterday – which is great as it means we have that many designers shopping the showrooms – and SFC&G is reaching their desired target audience. Congratulations and what great news to end the week!

Wow, what a spread! You even make me look good! The quality of the photos and the quality of the writing could not have been better! I think you have a real winner of a magazine....and so nice to see quality paper print! Please pass my thanks to your delightful team...they were the best!

A homeowner came to one of our fabricator's showroom with the 'Aura Dekton by Cosentino' ad in SFC&G torn out in her hand demanding exactly the same countertop shown in the magazine...**Best feeling ever!**

The whole issue is GREAT, and frankly every issue that I have seen. It exhausts me to even think about it. I am really loving what you are doing...just so thrilled for you. Thank you!

We received copies of the latest SFC&G! **What an exciting, vibrant, gracious spread!** Thank you sincerely for everything you did to make this happen. Personally, I am thrilled. I know the team will be happy, as well, when they're able to see it.

The whole issue is well done, as usual. Congratulations, and again, thank you!
